

Why is it necessary to be registered in the AIRE and to keep your consular file updated?

- Only by keeping your personal information updated can the Consular Authorities guarantee to offer prompt assistance to Italian citizens, also enabling you to exercise your right to vote by correspondence.
- Italian citizens that reside abroad on a permanent basis must register in the database of the Consulate situated in the country and area of residence. The registration procedure is free of charge. The immediate notification of any change of personal circumstances (address, marriage, births, etc.) will allow for a more efficient and regular Consular Service.

The updating of the Consular Database and subsequently the AIRE Register allows Italian Citizens resident abroad to benefit from Consular Services and to fully exercise their Electoral Rights.

For more information about Consular Services and AIRE please visit the website of the Consulate
